Forecast for Monday 05 Jul 2021

Weather: Sunny spells through much of the day with early low cloud lifting and breaking, with the odd shower breaking out at times. Showers will be lighter than previous days. Clouding over during the evening, with rain just reaching the Park by midnight.

Chance of cloud free mountain/hill tops above 800m: 40% becoming 100% by mid-morning, then becoming 70% during the evening.

Visibility: Areas of low cloud with bases around 600m during the first part of the morning will cause nearby landmarks to be obscured. Generally good visibility, with clear views of distant hills away from low cloud. Visibility deteriorating in any showers with ranges in the middle distance temporarily obscured. Cloud bases down to around 700m during the evening causing nearby landmarks to be obscured.

Meteorologist's View
Although there will be some showers, UV levels are expected to be high in sunny spells so protection is recommended.

Forecast for Tuesday 06 Jul 2021
Weather: A band of heavy rain and low cloud moves through the Park during the small hours of Tuesday. Once this clears, by mid-morning, there will be sunny spells and heavy showers, perhaps heavy and thundery during the afternoon and evening. Breezy conditions in the afternoon.

Maximum wind: Westerly mean 20mph gust of 30-35mph.

Chance of cloud free mountain/hill tops above 800m: Less than 10% becoming 60% from mid-morning

Visibility: Very poor first thing with widespread cloud with bases around 600m, obscuring nearby landmarks. Improving by mid-morning as cloud lifts and breaks to give good visibility with clear views of distant ranges. Though deteriorating once again through the afternoon and into the evening in periods of heavy showers.

Temperature: **Valleys:** Plus 8 Celsius becoming plus 18 Celsius.
At 800m: Plus 9 Celsius.
Freezing level: Above the summits.
